### OBJECTIVE

*I am an accomplished academic professional with over 12 years of experience in higher education teaching, research, and academic administration, specializing in Computer Science areas. Currently serving as an Instructor at the South Eastern University of Sri Lanka and following MPhil-PhD in Computer Science specialized in Artificial Intelligence. With Master's and Bachelor's degrees in Computer Science area, I have contributed significantly to research areas such as Software Engineering, Smart City, Machine Learning, and E-learning, with research articles and book publications to my name. Proficient in Java, Python, C++, PHP, and various statistical tools, I actively engage as a reviewer for international conferences and journals. Collaborating with international scholars has enriched my research endeavors, reflecting my dedication to academic excellence and innovation. In addition, I'm strongly interested in photographic and poetry.*
