

South Eastern University of Sri Lanka

Call For Papers

04th International Symposium

**August
2nd
&
3rd
2014**

“Emerging Trends & Challenges on Sustainable Development”

SCOPE

The symposium will mainly focus on Emerging Trends & Challenges on Sustainable Development

Research Tracks:

Track One: Emerging Trends in Social Sciences and Humanities

Track Two: Emerging Trends in Business and Management

Track Three: Emerging Trends in Sciences

Track Four: Emerging Trends in Cross Cultural Values

Track Five: Emerging Trends in Engineering

The symposium will be a multidisciplinary conference at which the research papers will be arranged for presentation according to the research track. The symposium will provide a valuable forum for academics, scientists, engineers, sociologists, economists, research students, etc. to present their research findings and to gain first-hand knowledge of some of the frontier areas and new directions in research and technology as well as to share and exchange ideas.
