

The URKUND Web Inbox Quick Reference Sheet

The screenshot displays the URKUND web interface, which is used for document analysis and plagiarism detection. The interface includes a top navigation bar with options like 'New folder', 'Settings', and 'Edit folder'. A central table lists documents with columns for analysis progress, document name, size, word count, submitter name, and submission date. Annotations provide detailed explanations for various UI elements, including how to return to the inbox, view analysis addresses, select items, and interpret the analysis progress bar. The table shows documents with varying levels of analysis completion, from 0% to 100%, and some with warnings or errors. The bottom of the interface includes a footer with contact information and a copyright notice.
